YASHODHRA YADAV

BCA STUDENT | ASPIRING DEVELOPER | WEB DESIGNER
CONTENT WRITER | CREATIVE TECHNOLOGIST

9451336447 • yashodhrayadav61@gmail.com • GitHub: github.com/yashodhra-yadav61-dotcom

PROGRAMMING & DEVELOPMENT

Programming languages
- Python
- Java
- C
- SQL

Web technologies
- HTML
- CSS
- JavaScript
- Web Development
- Web Design

Foundations
- Data Analytics
- Data Structures & Algorithms (DSA) Fundamentals

CREATIVE & DIGITAL SKILLS

- Content Writing
- Content Creation
- Graphic Design (Basic)
- Video Editing (Basic)
- Presentation Design
- Social Media Management
- Digital Content Creation
- Creative Designing

AI & PROFESSIONAL SKILLS

- Prompt Engineering
- AI-assisted Content Creation
- AI-assisted Development
- Communication
- Coordination
- Team Collaboration
- Creative Problem Solving

TOOLS & TECHNOLOGIES

- Flask
- SQLite
- Git
- GitHub
- Visual Studio Code
- Microsoft Office
- Google Workspace
- AI tools for content creation, ideation and development

EDUCATION

Bachelor of Computer Applications (BCA)
Lucknow Public Post Graduate College (LPPGC)
Affiliated to University of Lucknow (LU)
Expected Graduation: 2028
Status: Undergraduate student

LANGUAGES

- Hindi
- English

AREAS OF INTEREST

- Artificial Intelligence
- Technology & Software Development
- Web Development and Web Design
- Data Analytics
- Content Writing and Content Creation
- Social Media
- Graphic Design and Video Editing
- Creative Technology

PROFESSIONAL PROFILE

BCA student exploring the intersection of technology and creativity, with interests in software development, web design, AI and digital media. Building technical skills through practical projects and continuous learning, while also developing capabilities in content writing, content creation, social media, design and video editing. Enjoys combining technical thinking with creativity and communication. Open to internships, entry-level roles, freelance projects and collaborations.

SELECTED PROJECTS

MALHAM — Connecting Every Layer of Hospital Care

Healthcare management platform concept focused on improving coordination across hospital operations and patient care.
- Explores hospital bed availability and management, doctor attendance, emergency patient counts and patient footfall.
- Includes medicine and prescription management, with a focus on making prescriptions easier to understand.
- Considers WhatsApp-based patient reminders, medication schedules and follow-up care to help address missed doses and follow-ups.

SMART HEALTH AI CENTER

Healthcare-focused web prototype designed to simplify healthcare-centre administration.
- Includes doctor attendance management and PHC/CHC information.
- Tracks doctor status as Present, Absent or On Leave.
- Built as a Flask and SQLite-based prototype.

PRACTICAL EXPOSURE

- College-based technology projects, hackathon participation and project development.
- Practical exposure to content writing, content creation and event-related captions and promotional content.
- Social media content, coordination, presentation creation and basic design work.
- Creative and technical collaboration, including exploration of AI-assisted workflows and prompt engineering.

OPEN TO OPPORTUNITIES

Open to opportunities where I can contribute my technical and creative skills, gain practical experience, and continue growing.
- Software Development and Web Development Internships
- Web Design and beginner-level Data Analytics roles
- Content Writing, Content Creation and Social Media Management
- Graphic Design, Video Editing, AI and Prompt Engineering-related work
- Creative and Technology Internships, Freelance and Part-time Projects, and Collaborations
